Top Loader

Top loaders are in good condition, however there seems to be alot of plastic shavings inside the loaders and could potentially ruin sports cards. But, they are still a good buy. Thanks!

**Worked Well with My Postcard Collection**  
Was very easy to put my postcards inside the holders. I found them sturdy and since I like to look through the various cards I have, it makes it easy to just flip through them without damaging the cards. I went with the larger size (this size) so I could have all of my postcards i the same size holder. The smaller cards fit right in.

**Great product at a great price!**  
These 4x 6 plastic protectors are awesome. As a collector of postcards and small paper memorabilia, I can say that I'm very pleased. After buying many different kinds of protectors as various prices (all higher than these), I'm glad I finally found protectors at a steal. Thank you and my re-order will be in soon👍

Great product, fair price, highly recommend.  
I have converted my Pokemon card collection from 20pt standard holders to BCW 59pt toploaders. I found the BCW 59pt toploaders to be better quality and more convenient to use, especially with penny sleeves.

Perfect for Allen & Ginter relics  
Bought these for my A&G boxes coming in, they fit my relics from last year perfectly however they aren't thick enough for Leather and Lumber or Donruss relics. My Topps Xmas fit nicely but not manufactured Topps relics.

Getting over priced, same product as last year but double the price

I would give 5 stars except the price has gone up so much in the last year it makes the decision to buy alot harder, when I used to use for all my comics now I only get them for the most important issues

Wrap it up!

I like to treat my more expensive books to a little extra protection and these are a nice midway point between bags and boards and having my books slabbed.

Good protection !!

Definitely protects your most valuable comic books. If not CGC, this would be the best option compare to just having your comics bag and boarded.

Protection.

If you have valuable comics but can't send them to CGC, this is the best way to keep them in pristine condition.

TOP FAVORABLE REVIEW

BCW Archival Rigid Sleeves

I have always used the BCW products and emphasized their usage fo protect and preserve Postcards, photos etc. Even the varieious sizes that are available will fit anything small to large. I use one to even hold my auto registration paperwork in the car! I also have donated many of their products to the library archives for preserving their old photos and newspapers along with other items that are now certain to be around for future generations to see.

Very high quality postcard protectors

The hard cover postcard protectors are of very high quality for keeping postcards safe and secure. I will certainly order more when needed. These protectors are the perfect size for vintage post cards as well as a variety of items of this size, even recipe cards. Just an excellent product that is very versatile. Thank you for making it so easy to purchase these protectors!

Great product, very clean and smooth. Best postcard mailers I can find!

Great product at an excellent price. These bend without breaking the postcards and are exactly vintage postcard sized. For postcard dealers they are the industry standard. For collectors they will keep your cards clean and well protected without being a hassle to load.

Well made, sturdy protective postcard sleeves. Great for anyone that collects postcards for decorating.

These postcard sleeves that I purchased are awesome! Very sturdy and protective, but still offering a clear view of the postcard. The price was consistent with the quality of the product. Now I can decorate with postcards and not worry if they are accidentally knocked over onto the floor . They are also protected from rips and the edges being folded and bent from handling and age. The sleeve end up paying for themselves by saving money from purchasing frames and matting for the postcards. I will purchase this product again and recommend them to others. Lisa G.

Perfect!

These are perfect, wouldn't even consider buying another brand. I use these specifically to display ACEO/ATC cards, and I mount them in the wall with small command strips. Minimal glare. Several of my friends also use these for their magic cards.

Great value with this product.

In my opinion these toploaders are the same quality as the standard toploaders BCW sells. Just with a little more buffing. I've only been 1/4 of the way through the case and have had multiple cracked or chipped (not so PREMIUM) toploaders. On the value side it is a good deal.
